WELCOME HOME

PORCELUXE slabs are produced in Europe and designed for residential and commercial applications.

The decorative surfaces are utilised across architectural spaces on walls, flooring, kitchen benchtops, external facades and furniture, facilitating clients to make a personalised statement in their environment.

NEW DESIGNS

PORCELUXE

Heat Resistant

PORCELUXE slabs provide the luxury of heat resistance, making our products ideal for Kitchen applications such as induction cooktops.

As the product can resist such high temperatures. This makes them highly sought after for outdoor Kitchens & BBQ's.

CALACATTA GOLD

COOKING Surface Prime, the new invisible induction cooking system born from a matching process of Material and Technology.

COOKING Surface Prime offers the best quality together with an advanced design that perfectly fits in every space. A simple slab at first sight, yet hides an integrated induction cooking system to revolutionise the functionality of cooking or fundamentals of cooking.

SURFACE PRIME

PORCELUXE

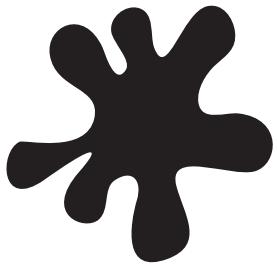

Scratch Resistant

PORCELUXE slabs are the ideal solution for places with heavy traffic exposed to intensive wear and stresses on a daily basis. In fact, they withstand fire and high temperatures, impacts, abrasions, acids and moulds.

BELVEDERE BLACK

Stain Resistant

Having virtually no porosity, our slabs are structurally hygienic, as they are non-absorbent, they do not allow dirt to penetrate below the surface. The surface's extreme compactness gives it resistance to detergents and acids. Manufactured from natural raw materials, these slabs are perfect for food preparation, when hygiene and cleanliness are essential requirements.

The Perfect Combo for Cooking Lovers

In order to maximise the efficiency of the Cooking Surface Prime induction cooking system, we have developed a cookware set that allows a better control of the temperature. Our cookware have at the base some spacers that guarantee the optimal space for the interaction between the metal surface and the kitchen top.

With our cookware set, no accessory tools and / or the use of spacers are required.
